

Post Bottomer Manual A and C

The BeA manual post bottomer closers A and C incorporate a simple rugged welded frame design for long service life. These bottomers will clinch 5/8", 3/4", and 7/8" leg length carton staples with no adjustment required. The 12" throat depth and 37" post height allow these bottomers to close a wide range of box sizes.

Popular Applications

Closing of corrugated boxes
